Low Voltage Accent Lighting -

These hard wired systems allow you to control the lighting, turning it on when you need it and off when you don't. They require only a traditional 110V outlet, wire and transformer. They are safe and easy to install, requiring no electrician.

Solar Accent Lighting -

These solar powered lights have extremely efficient LED circuits powered by two rechargeable batteries. They are easy to install, are low maintenance, environmentally friendly and perfect for remote locations as they require no electricity. (US Patent#6,722,637)

Our Designer product line is an innovative metallic and ceramic powder coated injection molded product line to enhance your fence, deck, and handrails. The Designer product line includes solar lighted post caps, low voltage lighted post caps, post skirts, and a variety of post cap designs using accent colors with textured finishes. Designer products will not tarnish like stamped metal post caps.

Visit our interactive site www.designerpostcaps.com for our full product line and to customize your products.
